PRE-FINISHED BALUSTERS

Euro Architectural Components (EAC) is a division of Richelieu Hardware Canada Ltd. Our continued growth as Canada's largest distributor of architectural components for the **RAILING**, **FENCE**, and **GLASS** industries has allowed us to maintain the highest quality of service while bringing our valued customers the latest product lines. EAC is thrilled to announce exciting additions to **STYLES**, our already popular line of pre-finished balusters. Along with our existing collection of modern and traditional tubular and solid balusters available in Pin Top, Drilled & Tapped, and Stainless Steel, we have introduced a new line of Coloured Stainless Steel balusters in 3 finishes and added more accessories to our **STYLES** line. EAC is also pleased to offer various installation methods to facilitate our customers as depicted on page iii.

FINISHES

We carry **STANDARD FINISHES** consisting of our most popular finishes. They are available in *POWDER COATED*, *PLATED*, and *STAINLESS STEEL* finishes, including our newly added *COLOURED STAINLESS STEEL* line in Gold, Graphite Black, and Satin Bronze.

We also offer *POWDER COATED* **CUSTOM FINISHES** (6 most popular seen on the following page) as well as **RAW MILL FINISH** balusters.

Please inquire about **MILL** and more **CUSTOM FINISHES**. Charges may apply.

FACTS AT A GLANCE

- Pre-finished
- Ready-to-install
- High quality products
- Affordable pricing
- Individually wrapped
- Expansive colour choices
- Custom finishes & designs available as special orders
- Visit our website for our extensive selection of balusters and other architectural components

CUSTOM POWDER COATED FINISHES

Colour chips on this page may not be accurate due to printing process.

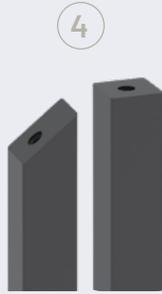

1
PIN TOP
A rounded pin at the top of the baluster inserts into the banister.
p 33-40

2
EPL SYSTEM
This pre-assembled system consists of a base plate welded to the bottom of the baluster complete with cover shoe.
p 16, 29, 53, 54

3
EZ SYSTEM
Our "EZ" decorative shoes can be affixed to the handrail or step. This system comes in fixed and swivel options, thus providing easy installation for both landings and stairways.
p 63-64

4
DRILLED & TAPPED
This system consists of a threaded hole at the top of the baluster with a flat bar underneath a wooden handrail for both landing and stairway applications.
p 41-48

5
INSERT
PTINSERT is a square rubber peg used with 1/2" square tubular balusters for easier installation at the top or bottom of balusters.
p 15, 66

6
BASE PLATE
EZTINSERT-A acts as a base plate for 1/2" square tubular balusters for easy installation.
p 15, 66

7
COIL PIN
The PTCOILPIN12 is a round metal pin used with either square or round 1/2" tubular balusters. Installation is applicable to top or bottom of balusters.
p 54, 66

TUBULAR WITH SOLID INSERT

These hollow, lightweight balusters are prepared with a 2" solid steel insert to allow for easy drilling and tapping. They are available square or round, and come pre-fabricated in various contemporary designs.

The image to the right displays our 1/2" PTM1S baluster (p 5), 1/2" PTMPLAIN baluster (p 3), and 1/2" PS12712 shoe (p 4, 63) in Satin Black to complete this modern look.

TUBULAR & SOLID

Whether you're using our tubular or solid balusters, you will have more flexibility and control in how you finish your project. These balusters come in a multitude of styles ranging from contemporary to traditional.

The image to the right uses our 5/8" PSL115TPS and PSL115NCS French balusters (p 32) adorned with our 5/8" PSE58 shoes (p 64) in a custom finish. Our 3 1/2" WPS31252 wood post (p 74) accented by our 3 1/2" WCA312 wood cap (p 80) in Oak put a finishing touch to this classic look.

USING 1/2" TUBULAR BALUSTERS?

For easier installation of 1/2" tubular balusters, use PTINSERT at the top (p 66).

To cover EZTINSERT-A, choose desired shoe (p 63-64).

Shown with PS8524 (p 63)

Create a base for 1/2" tubular balusters, use EZTINSERT-A (p 66).

EAC | STYLES PRE-FINISHED BALUSTERS 4TH EDITION

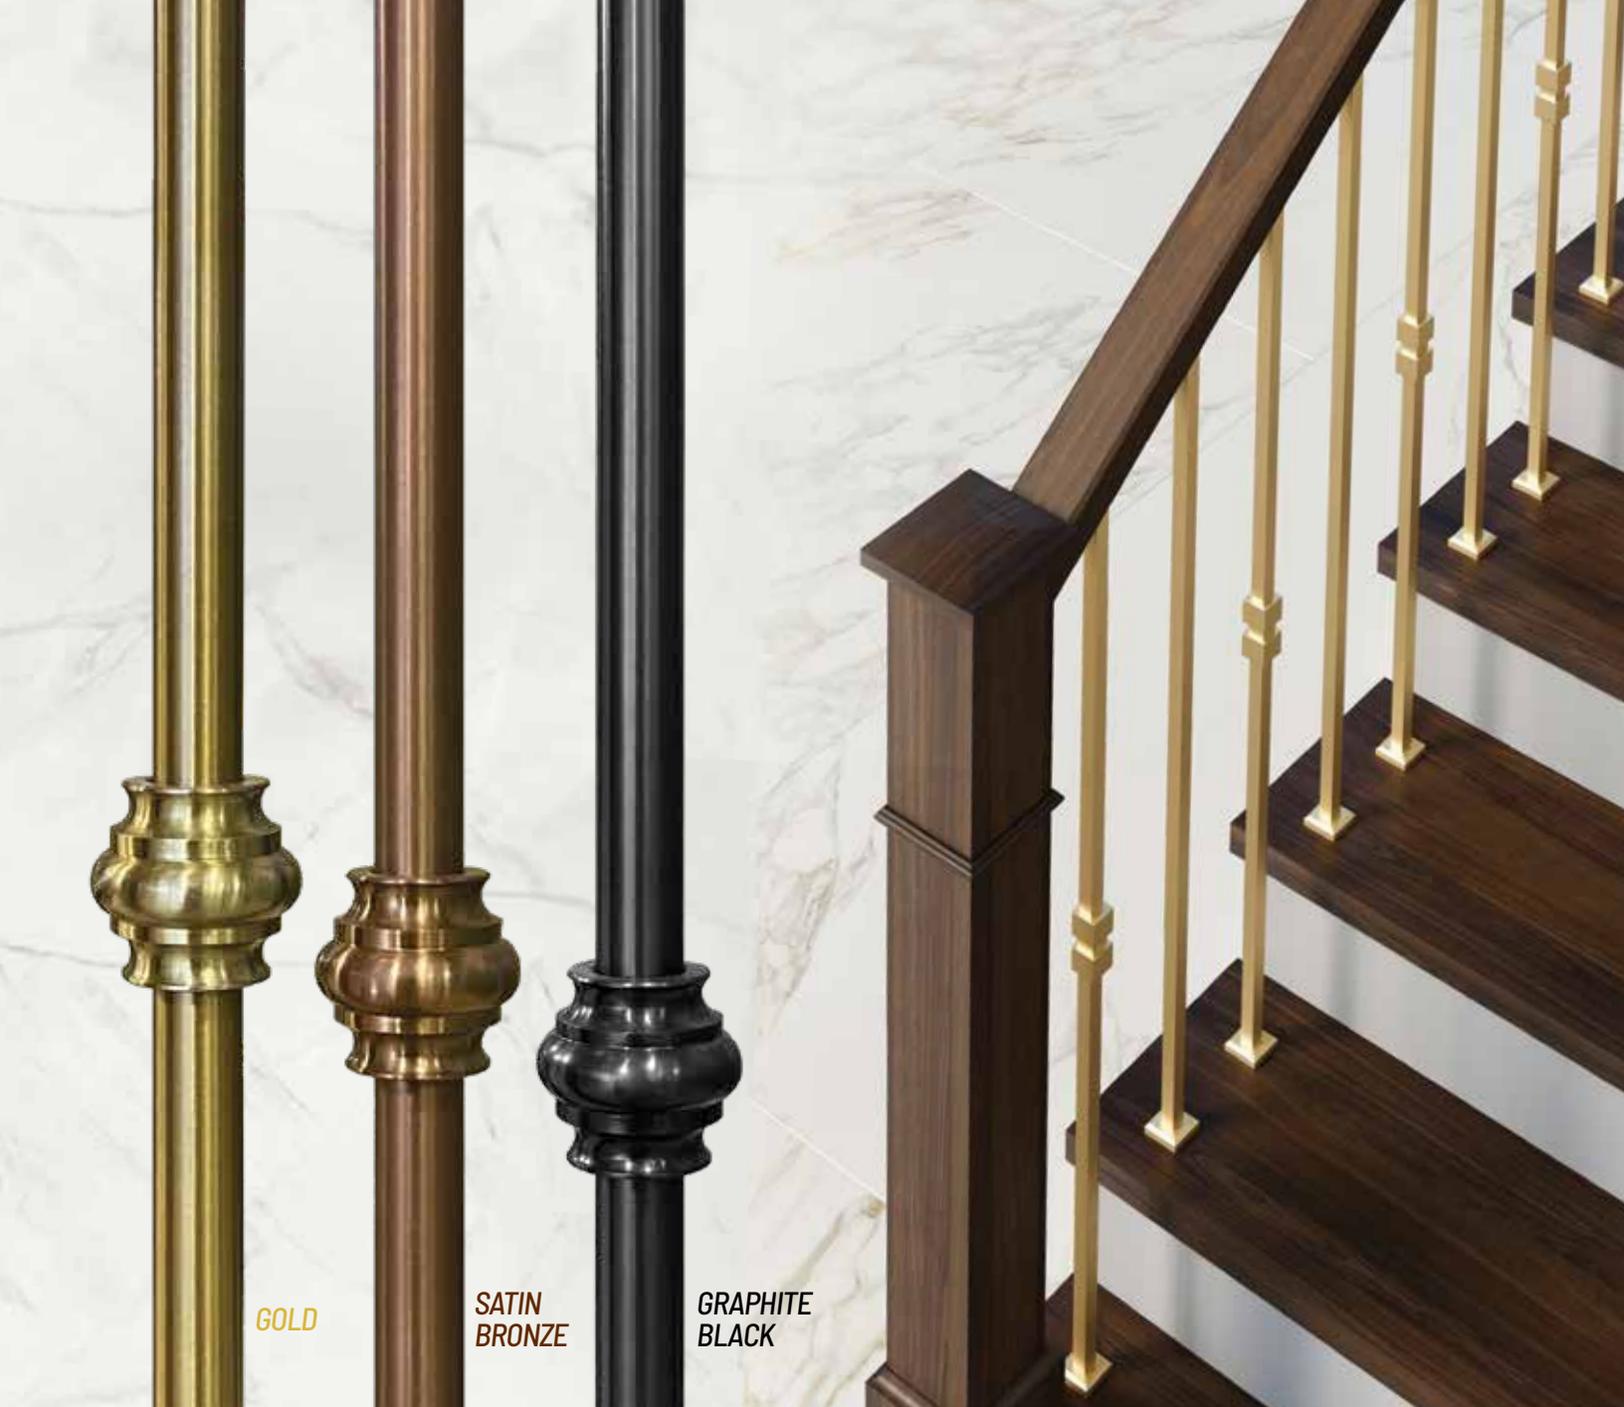

STAINLESS STEEL

Take your staircase to the next level with our line of stainless steel balusters. Available in our brushed stainless finish, you have the option of tubular or solid. Add a collar as a decorative element to incorporate your individual taste into the design.

Want something even more unique? Choose from our new line of Coloured Stainless balusters for your home renovation. Available in Gold, Graphite Black, and Satin Bronze, these balusters are both stylish and modern.

COLLARS, SHOES & HANDRAIL BRACKETS

Put the finishing touch on your new staircase with one of our attractive collars. With a wide selection of finishes and designs, we are confident that you will be able to transform your vision into reality. Choose from our shoes to complete the look of your staircase. We also carry a collection of square and round handrail brackets in all your favourite finishes.

The image to the right features the use of our 1/2" PSMC112 collar (p 61) and 1/2" PS1239 shoe (p 63) with our 1/2" PSPLAIN baluster (p 37) in Satin Black. Our modern chamfered WH413430 wood handrail (p 83) serves as a beautiful contrast to the 4" WPT448 wood posts (p 78) in Painted Poplar.
